

## Contract Details

1. **Full Name of the Contracting Body:**

Cairngorms National Park Authority (CNPA)

2. **Name and ID of the Contract:**

Cairngorms National Park Authority Farming Advice Services Call-Off Contract  
2024-2026, ID: APR503095

3. **Services Required:**

- **Tailored Farming Advice:** Consultants are required to provide specialized advice to upland, livestock, or mixed farmers on nature-friendly farming, low carbon farming, farm ecology, and carbon accounting.

- **Farm Plan Review and Development:** Consultants must review existing farm plans and collaborate with farmers to develop trial options that enhance biodiversity, reduce carbon emissions, and increase carbon storage without compromising farm business sustainability.

- **Technical Implementation Advice:** Offer technical guidance on the implementation of chosen farming practices.

- **Documentation:** Prepare detailed written proposals, maps, and plans for the farming practices to be implemented.

- **Farm Site Visits:** Conduct necessary farm visits to the participating farms for assessment and advice.

- **Workshops and Events:** Potentially organize and facilitate workshops or events for the participating farmers and the wider farming community in the area.

4. **Financial Constraints:**

The total maximum budget for the contract is £30,000, including VAT, over a 2-year period. This budget is to be distributed among multiple consultants, with individual jobs likely requiring 2-4 days of work each. There is no guarantee of a minimum or maximum number of days of work.

5. **Vendor Requirements:**

- **Experience:** A proven track record of advising farmers on nature-friendly farming, low carbon practices, farm ecology, and similar topics, particularly within the Cairngorms or similar upland farming systems.

- **Knowledge:** An in-depth understanding of upland, livestock, and mixed farming systems, including their constraints.

- **Communication Skills:** Ability to effectively communicate and collaborate with farmers and project staff.

- **Expertise:** Relevant expertise in the areas of nature-friendly farming, low carbon practices, farm ecology, and related fields.

6. **Other Considerations:**

- **Contract Duration:** The contract is for a period of 2 years, from May 2024 to May 2026, with a potential extension for another 2 years.

- **Tender Deadline:** Tenders are due by 10am on May 6, 2024.

- **Evaluation Criteria:** Evaluation of tenders will be based on 35% price and 65% technical/quality criteria.
- **Service Standards:** Successful contractors must agree to adhere to minimum service standards set by the CNPA.
- **Knowledge Exchange:** Contractors must participate in the National Lottery Heritage Fund knowledge exchange and evaluation process.
- **Open License Agreement:** An Open License Agreement applies to all materials created under this contract.
- **Geographical Restrictions:** Services are to be provided to farms located near Grantown-on-Spey, Glenlivet, Blair Atholl, and Logie Coldstone within the Cairngorms National Park in Scotland.

This summary provides a comprehensive overview of the Cairngorms National Park Authority Farming Advice Services Call-Off Contract 2024-2026, outlining the services required, financial constraints, vendor requirements, and other relevant considerations for potential consultants.

## Best matches

Based on the Cairngorms National Park Authority Farming Advice Services Call-Off Contract 2024-2026 requirements, the following companies from the knowledge base could potentially match the services required:

1. **SRUC (Scotland's Rural College)**
  - Location: Scotland
  - Description: SRUC provides comprehensive skills, education, and business support for rural research and consulting, including education and training, research and innovation, and consulting services aimed at promoting sustainable rural development.
  - Notable Projects: Rural Innovation Support Service (RISS), Sustainable Agriculture Capital Grant Scheme (SACGS), and various rural business support initiatives.
2. **The James Hutton Institute**
  - Location: Scotland
  - Description: A research organization focused on sustainable agriculture, climate-smart agriculture, and biodiversity, with projects like "Sustainable Agriculture in Scotland" and "Climate-Smart Agriculture in Africa".
  - Notable Projects: Extensive research on soil health, crop rotation, pest management, and sustainable farming techniques.
3. **Highlands Rewilding**
  - Location: Scottish Highlands

- **Description:** Focuses on rewilding and conservation, carbon sequestration, and sustainable profit generation, with projects like the Cairngorms National Park Rewilding Project and Caledonian Forest Restoration Project.
- **Notable Projects:** Partnered with Cairngorms National Park Authority for rewilding projects, demonstrating direct relevance to the CNPA's requirements.

4. **The Habitat People**

- **Location:** Aberdeen City, Scotland
- **Description:** A private conservation company dedicated to improving biodiversity on farms, estates, and gardens, balancing productivity and aesthetics.
- **Notable Projects:** Not specified, but their focus on improving biodiversity aligns with the CNPA's objectives.

5. **agrimax.uk**

- **Location:** Not specified
- **Description:** Specializes in providing personalized grant support for farms, innovative farming technology solutions, and consulting and advisory services.
- **Notable Projects:** Not specified, but their services in grant support, technology solutions, and sustainability initiatives could be beneficial for the CNPA's objectives.

6. **Agrecalc**

- **Location:** City of Edinburgh, Scotland
- **Description:** Specializes in farm carbon calculation and mitigation, offering software solutions for emission calculation, benchmarking, and mitigation to help farmers reduce their carbon footprint.
- **Notable Projects:** Not specified, but their focus on carbon footprint reduction is directly relevant to the contract's emphasis on low carbon farming and carbon accounting.

7. **Macarthur Green**

- **Location:** Scotland
- **Description:** An environmental consultancy company specializing in delivering positive impacts for the environment, with experience in sustainable agriculture, habitat restoration, and marine conservation.
- **Notable Projects:** Wind Farm Development in Scotland, Habitat Restoration in England, Sustainable Agriculture Project in Wales, and Marine Conservation Project in Ireland.

8. **Seawater Solutions**

- **Location:** Glasgow, Scotland
- **Description:** Focuses on promoting climate resilience in agriculture through innovative projects like saltmarsh creation for agricultural purposes.
- **Notable Projects:** Actively seeking global partners for saltmarsh creation projects, indicating a proactive approach to sustainable agriculture and biodiversity enhancement.

These companies offer a range of services that align with the CNPA's requirements for tailored farming advice, farm plan review and development, and technical implementation advice.
